

"We bring tech into wine"

ABOUT US

GrapeAlliance founded in 2019 has created a digital platform called GrapeManager to collect data, organize it and digitalize the **wine** industry. In the form of **Big-Data** and **AI** applications, we focus on **B2B** services for the **wine** world. Within our SaaS-platform our customers - including **winegrowers**, **wine** marketing agencies, **wine** brands and retailers - have the opportunity to analyse the flood of data and to get easy access to all their product prices and product availability on the internet. Therewith it serves as a valuable control tool over real-time distribution, data-based pricing and sales strategies.

Your heart beats for Tech? You want to help us to make the **wine** market more transparent? You're not just looking for your next job but want to be part of an ambitious team that works enthusiastic on the project "We bring tech into **wine**"?

WE ARE LOOKING FOR YOU AS A SOFTWARE DEVELOPER (M/F/D)

- You develop and extend a Node.js web crawler
- You develop different front- and backend web applications
- You support our team in shaping a modern IT- infrastructure
- You support our engineering team in their daily tasks
- You always try to transfer our company vision into the design of our tools
- In a fast-paced environment you are prepared to challenge others and be challenged yourself.

WE'LL POP THE CORKS IF YOU BRING THIS

- You have Javascript experience - a plus is JS experience in the backend (Node.js) or experience with Typescript
- You have experience with at least one programming language
- You are able to communicate in english
- You know how to work with version control systems (would be a plus)

WHAT'S IN IT FOR YOU:

- You help us shape our fast growing tech company.
- You have the possibility to grow into a full time position when you finish your studies.
- Flexible working hours, the possibility of home office and +30 days holiday.
- We care about our team and write TRUST in capital letters.
- Flat hierarchies with a „Let's do it!“ mentality.

Working Student: Software Development

(m/f/d)

Location: Düsseldorf
